

## SHIVAM SINGH

### TECHNICAL PROGRAM MANAGEMENT | GENAI | SOVEREIGN CLOUD | REGULATORY & CROSS-FUNCTIONAL DELIVERY

San Francisco, CA | [shiv-ai-tpm@umich.edu](mailto:shiv-ai-tpm@umich.edu) | +1 (202) 630-3211 | [linkedin.com/in/beastofbayarea](https://www.linkedin.com/in/beastofbayarea)

#### EXECUTIVE SUMMARY

Principal technical program leader delivering complex AI, cloud, e-commerce and regulatory programs across engineering, science, legal, GTM and operations. Builds program portfolios, **work-back** schedules, **RAID governance**, launch-readiness mechanisms and executive decision systems that move multi-team initiatives from ambiguity to measurable outcomes. Brings **technical program management**, **dependency** management, risk/**RAID governance**, **launch readiness**, **SOPs**, **executive escalation** and **cross-functional delivery** across AI and regulated cloud.

#### EDUCATION

University of Michigan, Stephen M. Ross School of Business - MBA, Strategy, Technology & Operations | 2022 - 2024

London School of Economics and Political Science - Executive Coursework, Economics, Markets & Public Policy | 2024

Indian Institute of Technology - B.Tech, Computer Science & Engineering | 2010 - 2014 | Peer-reviewed ML research, 159 citations

#### PROFESSIONAL EXPERIENCE

##### Amazon Web Services (AWS) - Generative AI

2024 - Present | San Francisco, CA

##### Principal Technical Program Manager, Sovereign Cloud

- Owned **program strategy** and **cross-functional delivery** for an agentic GenAI shopping copilot spanning **12** workstreams, **6** orgs and **3** time zones across engineering, applied science, legal, trust & safety, GTM and localization.
- Built **work-back** schedules, **RAID** logs, launch-readiness reviews and **escalation** paths while coordinating RAG hardening, model selection, guardrails, evals and human-in-the-loop controls; drove **25%** adoption, brand favorability **55% to 70%** and session depth **+15%**.
- Authored the executive PR-FAQ and **\$100M+** GMV sensitivity model that secured **\$5M** funding; shipped Japan localization through a reusable launch plan coordinating **8+** teams.
- Led sovereign-cloud GTM delivery for regulated banks, translating sovereignty and resiliency requirements into reference architectures and **compliance-as-code**; unlocked **\$20M+** commitments, built a **\$122M** pipeline and cut deployment **6** months to **2** hours.
- Program-managed** an **\$85M** buy-vs-build / acquisition evaluation across technical diligence, integration dependencies, operating economics and post-deal sequencing; coordinated the execution plan that consolidated overlapping tooling and improved gross margin **55% to 81%**.
- Program-managed** an **8**-region fulfillment operating-model rollout, coordinating governance, routing and incentive changes that reached **76%** in-region fulfillment and supported **7B+** same/next-day items, adding large-scale e-commerce execution to the AI/cloud portfolio.

##### Rakuten Group, Inc. - E-Commerce Programs

2023 | Tokyo, Japan

##### Technical Program Manager, Marketplace Strategy & AI Programs - MBA Intern

- Stress-tested a proposed **\$50M** DTC plan with a **10,000**-iteration Monte Carlo model of CAC, churn and payback, then drove **stakeholder** alignment on the pivot to a B2B2C partnership model.
- Program outcomes improved CAC **\$42 to \$8.50**, LTV:CAC **0.8x to 4.5x**, D30 retention **34% to 67%** and payback **18 to 4** months, validated through geo-lift testing and cohort analytics.
- Coordinated product, finance, data and merchant teams on embedded AI workflows across **70+** business units / **50K+** merchants, reaching **40%** adoption and reducing listing time **45 to 12** minutes.
- Resolved a cross-device attribution **dependency** by coordinating Engineering, Analytics, Finance and Merchant workstreams, restoring transaction continuity and revenue reporting while tightening ownership, **escalation** paths and launch-readiness criteria.

##### Microsoft Corporation - Azure

2020 - 2022 | Redmond, WA

##### Senior Technical Program Manager, Regulated Cloud & Compliance

- Led a regulated-financial-services AI program from requirements to deployment, pivoting from fully homomorphic encryption to confidential computing and reducing inference latency **14s to 220ms**; codified **SOPs** used across **10+** customer engagements.
- Cut time-to-compliance **9 to 3** months, sustained zero breaches and improved AI ROI **61%** by turning regulatory constraints into technical controls, test gates and reusable delivery patterns.
- Led cross-border data-residency remediation across **10** markets, rescuing a **\$5M** account, winning a **\$2M** upsell and addressing **\$25M** fine exposure through **risk** registers, **escalation** management and compliance-by-design **SOPs**.
- Program-managed** workflow automation for verified identity, approvals and event-triggered payments, reducing contract-to-cash **14** days to **<48** hours and supporting roughly **10x** partner volume through standardized technical dependencies and release controls.

##### The D. E. Shaw Group - RegTech

2016 - 2020 | New York, NY & Hyderabad, India

##### Vice President, Technical Program Management - Real-Time Risk

- Led a firm-wide real-time **risk** and capital-efficiency program across **15+** engineers, **5 stakeholder** groups and **~\$10M** capex, using a latency budget, Strangler-Fig migration and **90**-day shadow validation with **98%** output agreement before cutover.
- Cut **risk** latency **90ms to 4.2ms**, unlocked **\$85M** regulatory capital, reduced false positives **15% to 1.8%** (**~\$400K/month** saved) and scaled throughput to **5.4M** messages/sec with zero dropped packets through live market stress.
- Ran steering, **dependency** and **go/no-go** governance across trading, quant, compliance, finance and technology, converting conflicting requirements into sequenced decisions and measurable release criteria.
- Managed and developed a **15+** person global delivery team, owning hiring, promotion calibration, operating reviews and delivery standards while aligning quant, trading, compliance and technology leaders on program priorities, **risks**, dependencies, implementation sequencing and release readiness.
- Delivered a **72**-hour deal-data program that cut consolidation **48 to 6** hours, coordinating legal, investment, quantitative and engineering dependencies and helping close a **\$25M** Series B one week ahead of competitors.

##### McKinsey & Company - Digital & Retail

2014 - 2016 | London, UK

##### Engagement Associate, Transformation Program Delivery

- Enabled a **\$1.1B** APAC market-entry program by translating regulatory constraints into data-platform modernization, architecture and GTM choices for the CFO, CIO and CMO.
- Delivered a retail-pricing transformation using Agile Pods, regression and hindcasting; identified a **\$50M** revenue opportunity, achieved **95%** forecast accuracy and cut analytics speed-to-market **6** weeks to **<1** week.
- Structured the **cross-functional delivery** plan for a **0-to-1** digital-bank launch, sequencing regulatory sandbox, eKYC, alternative-data credit scoring and distribution workstreams as the platform scaled to **100K** active users in **90** days.
